

Critical Questions:

Use these questions to help you make decisions.

From the top, if one answer is problematic, don't do it. That's your decision.

- **Feel Safe—Could this decision cause harm?**
- **Be Connected—Would it tend to people's *right here, right now* feelings and needs?**
- **Get regulated—Is it *just right* for promoting regulation and a readiness for teaching/learning?**
- **Learn—Will this help the student(s) learn?**

These are ideally processed *before* you act but are appropriate during and after too.
