What's the best way to ensure real reading progress for K-3 students who receive primary reading instruction in Spanish?

The answer is simple: Tejas LEE®, the research-based system that helps teachers identify struggling readers early, deliver data-informed instruction, and verify that interventions are really working.

tejas•LEE®

Specifically developed to address the development of Spanish literacy and used successfully in more than 20,000 classrooms across the country, Tejas LEE® solves key challenges for:

TEACHERS

Tejas LEE® is about teaching, not testing. From quick, efficient data collection to step-by-step intervention and progress monitoring, educators are empowered with everything they need to deliver the best possible instruction and solve the reading problems their students encounter. And because teachers collect the data themselves, they feel ownership over assessment results and are highly motivated to act on them.

STUDENTS

With Tejas LEE®, students who may be at risk for reading failure get the individualized help they need *before problems become chronic*. Assessment is engaging, quick, and designed to minimize frustration, and the intervention activities help students master the reading skills they'll need to excel in every subject, setting the stage for long-term success in school and in life.

SCHOOLS

With the data collected using Tejas LEE®, schools and districts will better understand the strengths and weaknesses of their current practices. Tejas LEE® also gives schools a detailed overview on every student and classroom, so they can make informed decisions about instruction and teacher professional development.

tejas·LEE®

- For students receiving primary reading instruction in Spanish
- Developed for K-3 teachers
- Used in more than 20,000 classrooms
- Reliable & research-based
- Helps teachers improve instruction
- Catches struggling readers before they fail
- Links assessment results with targeted interventions
- Written in “neutral” Spanish to account for different dialects
- Perfect fit with Response to Intervention

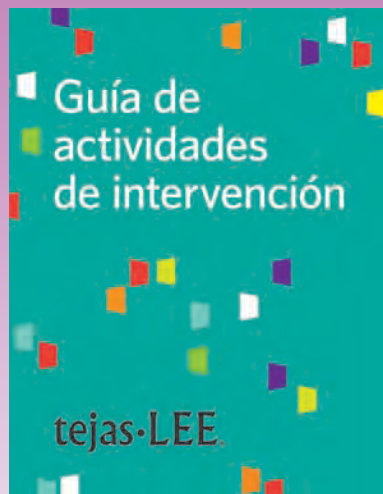

*Assess student skills with
El inventario de lectura en
español de Tejas assessment kit*

Improve reading outcomes in three steps:

Tejas LEE® is a complete solution for assessing and improving the reading skills of K-3 students who receive primary reading instruction in Spanish. A valid, reliable, and authentic assessment, Tejas LEE® helps teachers identify students' strengths and problem areas early and provide them with targeted, data-informed instruction.

Tejas LEE®, tejas·LEE®, TPR®, and TPR® are registered trademarks of The Texas Education Agency. Monitoreo del progreso para lectores emergentes™ is a trademark of The University of Texas System and The University of Houston System. Monitoreo del progreso para lectores principiantes™ is a trademark of The Texas Education Agency..

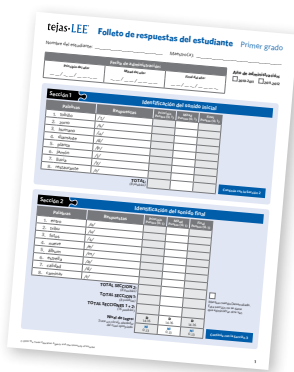

Intervene with *Guía de actividades de intervención*

DIAGNOSE

Using the assessment kit, *El inventario de lectura en español de Tejas*, teachers conduct an assessment of students' skills and determine their strengths and weaknesses in key areas such as book and print awareness, phonological awareness, graphophonemic knowledge, listening comprehension, reading comprehension, and fluency.

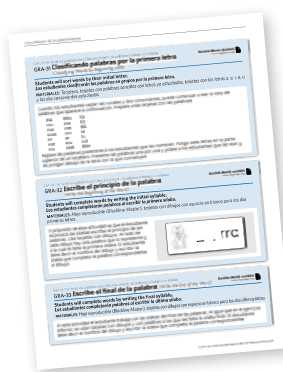

Assessment is conducted at three time points: beginning, middle, and end of year. Tejas LEE® provides separate performance expectations for each time point, so teachers can identify which students need more intervention and which ones are progressing as expected.

INTERVENE

Directly linking assessment data with instruction, the *Guía de actividades de intervención* gives teachers more than 300 activities that target the specific areas in which their students need assistance. Perfect for small-group instruction (but easy to adapt for whole-class or one-on-one teaching), the activities are supported by the latest research on

Spanish reading development, require little preparation, work with any curriculum the teacher is already using, include variations and adaptations to keep students engaged, and give teachers the flexibility to work with students at all instructional levels. Icons throughout the book link more than 100 of the activities to blackline masters available on the Tejas LEE® website.

WHAT TO ORDER

Here are the products you'll need to conduct diagnosis, intervention, and progress monitoring with Tejas LEE®:

El inventario de lectura en español de Tejas Assessment Kit—includes Teacher's Guide, Story Booklet, Task Cards, and Stopwatch

MONITOR

With Tejas LEE®'s reliable progress monitoring instruments—*Monitoreo del progreso para lectores emergentes™ (MPLE)* and *Monitoreo del progreso para lectores principiantes™ (MPLP)*—teachers can closely observe the progress of students who have

difficulties with specific literacy skills and make any necessary adjustments to their instruction. The kit for emerging readers determines student progress in graphophonemic knowledge, phonological awareness, and listening comprehension, while the kit for beginning readers focuses on the higher-level skills of reading accuracy, fluency, and comprehension.
