

# What's **NEW** in the second edition of *The Early Childhood Coaching Handbook*?

The new edition of the bestselling *The Early Childhood Coaching Handbook* is packed with even more practical tools to help early childhood professionals conduct skillful coaching in homes, schools, and communities.

Like the popular first edition, this book walks you step-by-step through the **five characteristics of successful coaching practices**: observation, action, reflection, feedback, and joint planning. You'll learn about the essential qualities of effective coaches and discover how to adjust your coaching techniques to meet the specific needs of early childhood educators, parents, and caregivers. And you'll get **cutting-edge new content inspired by user feedback**, including updated research, the latest evidence-based practices, and almost 80 pages of sample scripts and scenarios that help you support families of children with a wider variety of diagnoses. With this practical guide to proven coaching techniques, you'll be ready to help both professionals and families support the learning and development of all young children.

## What's **NEW**

In the new edition, you'll find the following:

- More **scripts and scenarios** that show what coaching looks and sounds like in the real world
- A **Coaching Scenario Matrix** to help you find relevant examples in seconds
- New chapter on **coaching for early intervention service coordinators**
- More guidance on **coaching throughout the IFSP process**
- New examples that address **common coaching challenges**
- Expanded guidance on the **process of coaching coaches**
- **Answers to key questions** from the authors' popular training sessions
- **Practical forms** now available as fillable PDFs for download
- **Updated research** on the effectiveness of coaching

Available  
**September  
2019!**
