

Dear **INSERT name of employer or supervisor,**

In order to be more effective in promoting inclusion and teaching students with diverse abilities in our district, I'd like to take an online course taught by inclusion experts Dr. Julie Causton and Dr. Kristie Pretti-Frontczak.

This online series will give me the skills I need to to:

- See children and students from a place of strengths
- Ensure children and students are more independent
- Play a meaningful role in the development of IFSPs/IEPs
- Support children and students with behaviors that are challenging

**The overall outcome of this course is to increase my effectiveness as a paraprofessional from PreK-12 and boost student engagement, which I know are values of our district.**

The on-demand series includes lifetime access to four topical sessions and 24/7 access to a community of other paraprofessionals from across the world for only \$379.00.

The course dashboard includes the recorded training videos (approximately 1 hour each), audio only files of the content, transcripts, key PPT slides to print, and session-by-session handout packets with all the practical tools I can use and reuse.

There are options for registering multiple paraprofessionals at a time if you prefer to have a group of us take the training together. You can read more about what's included here <https://www.inclusiveschooling.com/pd-4-paras>.

Thank you for considering my request,
